

# Home Furnishings and Appliances Premium Program

## Check Center's Services are Designed to Increase Sales

Our check services can increase your sales by allowing you to say yes to checks with less risk. These enhancements are designed to maximize sales by offering a check solution to customers at stores specializing in home furnishings, appliances, electronics and custom design. Choose from these premiums and others to tailor a program to your special needs.

### Check On Delivery

Phone order or delivery? Before you send out an order, authorize the check with us, then send out the order and collect the check knowing it's guaranteed. With this premium, you will have upfront protection and your customers will be able to pay with a check.

### Disputed Stop Payment

We'll give you the protection you need against Stop Payment returns. Check out other programs and you'll find they don't cover disputes. We do! Our premium includes reimbursement on Disputed Stop Payments when you need it the most.

### Multiple Check

This check payment solution allows you to accept up to four checks from a customer to be deposited over a specified period of time. The checks are guaranteed up to the approval amount.

Please see service agreement for complete terms and conditions.
